ENGINEERING & CONTRACT

COMPANY PROFILE

1. COMPANY

nòva is an international company focused on engineering and building of complex structures, through the use of non-traditional materials and novel constructive techniques.

Innovation and technical research represent our foundations with a full range of professional group and individual qualifications.

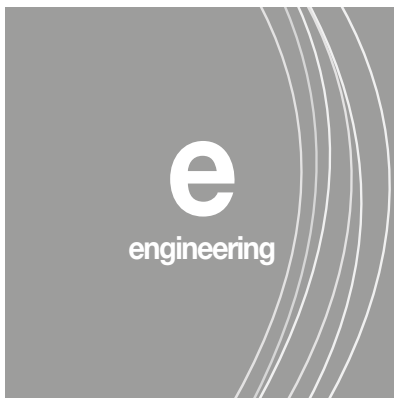

nòva was found in 2013. The significant experience acquired by the exponents forms its history.

2. LOCATION

nòva legal Headquarters is situated in Fiuminata, Marche.

3. COMPANY MISSION

Multa non quia difficilia sunt non audemus, sed quia non audemus sunt difficilia (Seneca).

MISSION

nòva is skilled in the design and realization of complex building structures, together with steel and glass products for the public sector, including undergrounds, airports, hospitals and companies.

MISSION

Export the italian philosophy of “housing” maximizing comforts and minimizing costs.

nòva, according to its etymology, gears its continuous training and technological investment towards novel construction approaches, providing outstanding results, in terms of living comfort and economical savings.

Pictures of ongoing project will be loaded shortly.

MISSION

Aretè: the Greek way!

If contracting means to provide our Clients with th demanding service that they require, planning and then fulfilling their expectation, nòva is the way.

Supported by concrete International collaborations, Nova strives for these needs, starting from the project planning, the realization and, eventually, to the internal design of private houses, hotels, hospitals, private or public offices, banks or receiving areas.

The “Turnkey” formula synthetizes nòva’s philosophy: qualifications, experience, and commitment, combined with the italian style and a positive attitude toward each single project.
